For more than three decades, DOROT has been an innovative leader in the field of aging services and volunteerism. DOROT alleviates social isolation among the elderly and provides services to help them live independently as valued members of the community. We serve the Jewish and wider community, bringing the generations together in a mutually beneficial partnership of elders, volunteers, and professionals.

With DOROT’s University Without Walls (UWW), older adults only need a phone or a computer to join a vibrant community of lifelong learning and peer support. Our interactive programs over the phone and online enable older adults to explore art and culture, discuss current events, share memories, practice new skills and enhance their health and that of their loved ones from the comfort of their homes. DOROT engages professional facilitators from renowned institutions that bring expert knowledge to small groups, giving each participant an opportunity to discover and contribute. DOROT created UWW in 1989. The program continues to bring laughter, friendship, learning and support to individuals in their own homes.
