

# DOROT WESTCHESTER COLORING WORKSHOPS

Coloring books are no longer just for kids! Most adults love coloring and enjoy taking out favorite coloring tools and filling in a design. Whether we are by ourselves or with a group of friends, we experience a sense of relief and are given a break from life's issues. The beauty of coloring is that there is no skill level that must be acquired before you are considered an expert. By the time we reach adulthood, it's safe to say a majority of us have accomplished coloring in between the lines. If after all of this you are still wondering whether or not to join the adult coloring craze, we have one final reason why you should . . . it's fun! With all of the stresses of life, we could all use an activity that elicits childhood nostalgia and promotes some good old fashioned fun.
