

The Lasting Impressions  
*Legacy Lecture Series* presents:

# The Legacy of Jewish Broadway

Jewish Americans have served as the main creators behind the growth of the Broadway musical in the US, but what does the Broadway musical tell us about issues of race, especially the racial identities of its Jewish creators? Join Warren Hoffman, Executive Director at the Association for Jewish Studies, for a stimulating look at how musicals helped Jews assimilate into the mainstream. Q&A will follow the presentation.

Join us for a thoughtful discussion;  
we'll provide the movie clips and popcorn!
