Benefits

Texting has become a very popular method of communicating with others. Many people may be easier to reach by text than by traditional voice calls. Texts generally get you a quicker response and require fewer steps than retrieving a voicemail or email response. Some service providers like doctor’s offices, pharmacies, use text to notify of appointments or when pick-ups are ready. You can even send or receive pictures through text. This guide will show you how.
Connect Through Tech

Prerequisites

- iPhone with operating system 12.x or later
- Active mobile provider (e.g. Verizon, Sprint, AT&T)
- Apple ID added to iPhone
- Have completed session on Contacts OR already have at least 3 contacts entered on phone
Introduction

The word “app” is short for application. An application tells your phone how to do a related set of tasks. In this guide, you will learn how to use the text message app.

Text messages are generally meant for very short communication, like asking a question or sending a reminder. Depending on a situation, some people may also use text messages for longer information. Text messages can also be used when you or the person you want to communicate with may not be able to talk on a phone, such as when you or that person are in a quiet place.

This guide will describe how to send and receive text messages, as well as how to send and save pictures with text messages.

Different people like to communicate in different ways. When adding someone to your contacts, ask them if they prefer calls, text or email. Using their preferred method when you contact them will help you to get a quicker response.
Send Text Message by Voice
Person in Contacts

Step 1. **Click** (tap) home button on bottom of phone (on left below) to **open** (start) **Siri** (iPhone program that responds to your voice). If you have an iPhone X, **click** (tap) button on right side of phone instead (on right below).
Send Text Message by Voice
Person in Contacts (continued)

Step 2. Say “Text _______ (name of person)”.

**Siri** (iPhone program that responds to your voice) will respond “What do you want to say?”

Step 3. Dictate your message.

**Siri** (iPhone program that responds to your voice) will display your message on screen “Here’s your message – ready to send it?”

Step 4. Say Yes to send message or **No** if you’re not ready to send it.

**NOTE: You will need to use words to insert the punctuation you want. Ex: Say, “Hi exclamation point” to text “Hi!”**

Once you say yes, text message will be sent.
Send Text Message by Voice
Person Not in Contacts

Step 1. **Click** (tap) home button on bottom of phone (on left below) to **open** (start) **Siri** (iPhone program that responds to your voice). If you have an iPhone X, **click** (tap) button on right side of phone instead (on right below).
Step 2. Say the mobile phone number of contact you want to send text to.

**Siri** (iPhone program that responds to your voice) *will respond* “What do you want to say?”

Step 3. Dictate your message.

**Siri** (iPhone program that responds to your voice) *will display your message on screen and will ask* “Here’s your message – ready to send it?”

Step 4. Say Yes to send message or No if you’re not ready to send it.

NOTE: You will need to use words to insert the punctuation you want. Ex: Say, “Hi exclamation point” to text “Hi!”

Once you say yes, text message will be sent.
Send Text Message by Hand
Person in Contacts

Step 1. **Open** (start) the *Messages* app.

NOTE: This **icon** (picture) may be in a different location on your screen. As long as the **icon** is the same, it doesn’t matter where it appears.
Send Text Message by Hand
Person in Contacts (continued)

Step 2. To start a new text message, **click** (tap) pencil icon on top right of screen.
Send Text Message by Hand
Person in Contacts (continued)

Step 3a. Choose who you want to send message to by starting to type name of contact, then clicking (tapping) on the person / number you want.

OR
Send Text Message by Hand
Person in Contacts (continued)

Step 3b. Choose who you want to send message to by **clicking** (tapping) the *Plus Sign*. 
Send Text Message by Hand
Person in Contacts (continued)

Step 4. From list of contacts, **click** (tap) name of person you wish to send text message to.
Send Text Message by Hand
Person in Contacts (continued)

Step 5. **Click** (tap) message icon to select this person to send text message to.
Send Text Message by Hand
Person in Contacts (continued)

Step 6. Compose text message you would like to send, by clicking (tapping) the text message box and typing your message on the keyboard below it.
Step 7. To add an **emoji** to your message, **click** (tap) on *Smiley Face* icon. Emojis are images that express ideas or emotions.
Step 8a. From menu on bottom of screen, select type of emojis to view, e.g. faces, animals, meals, etc.
Send Text Message by Hand
Person in Contacts (continued)

Step 8b. **Click** (tap) on emoji(s) you would like to add to your text message (scroll to the left to review all emojis). Meal **icon** (picture) is selected below.
Step 9. When ready to send, **click** (tap) green arrow.
